

Test Report No. 9613213212

In accordance with Clause 12 of the Standards Law, 1953

Details of order:

Name of customer: Ilan Bracha Ahzakot
Address: 2 Tzvi Neriya St., Petah Tikva
Date of order: 04/07/2016

Description of product:

Gas timer valve.
Model tested: NGL 10701
Manufacturer: Roland Armstrong
Country of production: India

Details of sampling:

The sampling was carried out on: 23/08/2016
Number of items sampled: two items from batch of 4200 items.
Supplier's name: Roland Armstrong
Country of import: India

Nature of test: Prototype test

The HAGAZ was tested for compliance with all clauses of ANSCI Z21.21 · CSA 6.5 - 2015 standard.

This report contains 7 pages
and may be used only in full.

**This test refers to the test
samples only**

This document is not a
standard mark approval

Conclusions of test:

The item complies with clauses of the standard to which it was tested.
Full details of the test results are in the following pages.

Remarks:

1. SII products file : 450210
2. Serial numbers of the valves in the batch: S/N 000001-004200
3. Item number 001788 tested for full test
4. This test is prototype test.
5. There is photo documentation in appendix A at page 5.
6. The assembly of the vales performed in Gevasol at 23/08/2016 – 06/09/2016
